

Learn about this template

Use this activity diagram to:
Display the functionalities of various activities and flows in business processes and software systems.
Use color to show who is responsible for performing each activity.
Access Lucidchart's UML state/activity shape library to create your own activity diagram.
To customize this template:
Click on a shape and type the information you would like to include.
Add, remove, and arrange shapes as necessary.

Pro tip: Turn on auto tiling (in the page settings tab to the right of the canvas) to allow the canvas to automatically adjust.
